

ISO 14064 Carbon & ISO 50001 Energy Audits **1-day Training**

“With End of Course Examination”

The United Nation Climate Change Committee (UNCCC) meeting was recently held in Paris with 170+ world leaders attended. President Obama & President Xi have announced that USA and China will respectively reduce their greenhouse gas (GHG) emissions in the forthcoming years in order to secure the temperature rise globally less than 1.5 degree Celsius in next two decades. It is imminent now not to exploiting the normal life of our next generation, all human beings living in this globe should work hand in hand to mitigate and alleviate the GHG emissions and the corresponding carbon footprint. Life cycle analysis (LCA) is adopted to estimate the GHG emissions. The methodology is stated in the **ISO14064**.

Reduction of energy consumption in the forms of fossil fuel, gas and electricity are being implemented in various countries over the world. It will be replaced by renewable energy such as wind, solar, and hydro, etc. Indeed, the management system required to alleviating the consumption of and to conserve the energy is stated in the **ISO50001**. The HKSAR Housing Authority requires all contractors in Hong Kong who are serving them to achieve this certification in a next couple of years. In addition, the HKSAR EMSD enacted a regulatory requirement for the energy audits of buildings in Hong Kong with a view to mitigating the energy consumption.

Date: **27 January 2016** (Wednesday)

Time 9:15 am to 5:30 pm

Place: A Training Venue near Waterloo MTR Station

Contact: H.C. Yeung at 98358043

Course Quota: A Maximum of 15 Participants

Unit E, 18 Floor, The Bedford, 93, Bedford Road,
Tai Kok Tsui, Kowloon,

Tel: 9835 8043

About the Presenter

Ir CK Cheung is a “**Registered Professional Engineer**”

He is graduates of “Imperial College of Science & Technology of the London University” and the “University of Hong Kong”

Founding President of the HKICA

Registered Carbon Auditor of the HKCIC

Carbon & Energy Auditor of the EI of the UK

International Lead Evaluator of PAC (for IAF) in **ISO14065**

Abbreviation:

HKICA – Hong Kong Institution of Certified Auditors

HKCIC – Hong Kong Construction Industry Council

EI(UK) – The Energy Institute of the United Kingdom

PAC – Pacific Accreditation Cooperation

IAF – International Accreditation Forum

Course Fee:

HK\$1,250 for ordinary participants

HK\$1,100 for members of the following status & Institutions:

Hong Kong Institution of Engineers (HKIE)

Hong Kong Institution of Surveyors (HKIS)

Hong Kong Institution of Architects (HKIA)

Hong Kong Institution of Certified Auditors (HKICA)

Hong Kong Concrete Institute (HKCI)

Hong Kong Institute of Steel Construction (HKISC)

Hong Kong Fire Protection Association (HKFPA)

Hong Kong Institution of Plumbing & Drainage (HKIPD)

GEES Member & CP and QMS Auditors & Assessors

Note: Cheque payable to “C&K Pacific Limited”

Unit E, 18 Floor, The Bedford, 93, Bedford Road,
Tai Kok Tsui, Kowloon,

Tel: 9835 8043

Application Form

For a Training Course

Course Title : _____

Date of Course : _____

Family Name : _____

Given Name : _____

Chinese Name : _____

Cell Phone No. : _____

Company : _____

Affiliated Institution/Association : _____

Cheque No. : _____

Email Address : _____

I.D. No. (First "four" No.) : _____

Remarks : _____
